GROW

Why be just a Client Service Agent (CSA) when you can become a **Protection Advisor**? As a Protection Advisor you stay focused on your relationship with your clients. You advise and counsel them on coverage options. You help them understand their insurance decisions. And you solve their insurance problems.

If this interests you, you need to understand one VERY important thing... This tremendous career opportunity is available only to the best we can find!

If you answered YES to ALL of the questions at the right, then here's what YOU need to qualify for this position:

- You MUST have an Ohio Property & Casualty insurance license - or equivalent license from another state - or, based on your experience, be prepared to obtain your Ohio license immediately.
- You MUST have experience with personal lines insurance - preferably in a client service agent (CSA) or producer role, or in a position that is prepared you for CSA duties.
- You MUST get to work reliably. We are located in Boardman, Ohio.
- You MUST get to work on time. You know yourself best. If you cannot get to work on time, please do not apply.
- You MUST be able to work during our office hours of Monday - Friday 9am - 5pm. These hours are not flexible. Our clients expect us to be available when we say we are.
- You MUST be committed to your clients. Client service beyond office hours is sometimes necessary to provide top-shelf service. That's the business we're in.

We provide excellent income package with eligible 401K matching plan, competitive income with optional bonuses, incentives and opportunity for growth and income advancement, all with a great team of co-workers! We will hire a motivated person committed to high-quality work and top-shelf service.

If yes, we hire only the best.

ARE YOU...

- Positive, upbeat and courteous with a great attitude?
- Reliable, trustworthy and dependable?
- A bright, fast learner - especially with new computer tools and skills?
